Chameleon Customised whiteboard wall
Specifications

Chameleon quality

The core of the Chameleon range is formed by the whiteboard. A Chameleon whiteboard can be recognized by quality, which is visible in 4 ways:

1. Sturdiness: Chameleon whiteboards are 10 mm thick with a sturdy water-repellent MDF core (FSC® certified - license code: FSC-C130761).
2. Surface: Chameleon whiteboards feature high-quality magnetic enamel-coated steel, recognizable by a smooth surface without any irregularities. We offer a lifetime warranty on writing and erasing on all enamel surfaces. Below is an overview of our enamel surface options.
3. Finish: Chameleon whiteboards are machine-cut and then manually finished with great attention to detail.
4. Installation: Chameleon employs a unique TÜV-certified mounting system that utilizes magnetic plates.

LIFETIME WARRANTY

Code	Surface	Description	Writing / erasing	Panel edge colour	Maximum dimension
W	Whiteboard white	Most popular whiteboard surface with a high gloss finish	Whiteboard markers / dry erase	White lacquered	1480×2980 mm

General

Every organization is unique. With a Chameleon custom whiteboard wall, this uniqueness can be accentuated. Create a magnetic writing surface with complete freedom in shape and size. It allows you to think big and unleash your creativity.

- To be made wall-filling (accurate to mm, note: allow for some play due to uneven walls)
- Add creative shapes, such as a skyline at the top
- Include your logo as a cutout, with a full-color print behind it that reflects the colors of your logo
- Have a cutout made for a wall outlet or TV screen on or in the whiteboard
