Chameleon Double Column Board

Whiteboards for education

Contents
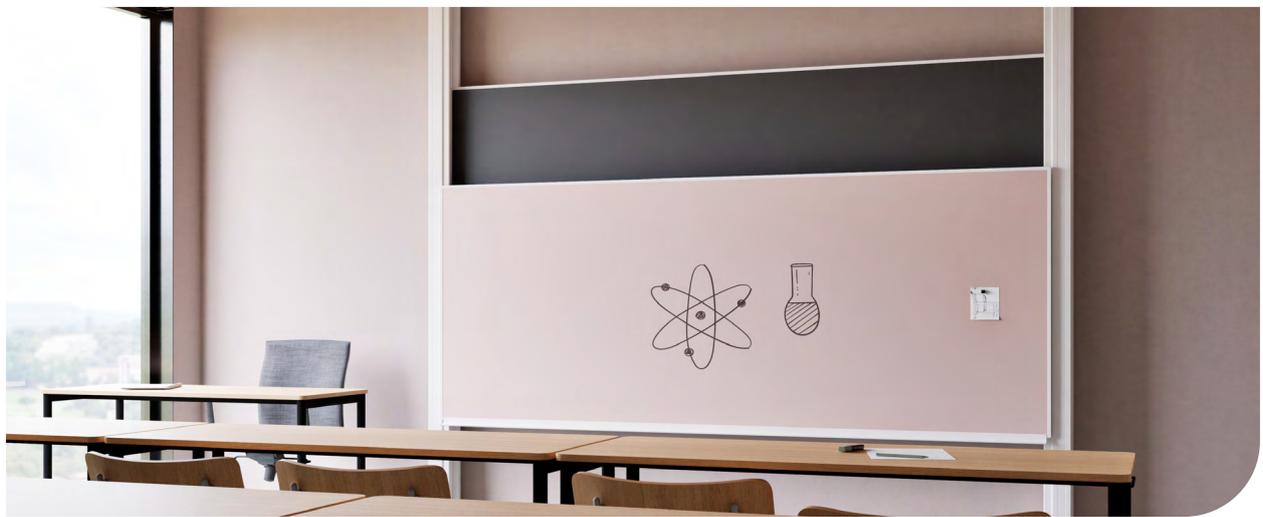

Why choose for Chameleon Double Column Board?

Chameleon double column boards offer double the writing surface within the same floor space—ideal for dynamic lessons, interactive sessions, and multi-part presentations.

Thanks to the sturdy vertical columns, both boards are smoothly height-adjustable without fixed positions. Users can easily switch between different content levels without needing to erase information. Perfect for classrooms, meeting rooms, and training environments where clarity and interaction are key.

The scratch-resistant ceramic steel writing surface ensures years of writing comfort and clear visual results. For a stylish look, the board is also available in the subdued SatinTones colour palette, which brings calm and cohesion to any space.

Double Column Board - C300 + S205

What makes Double Column Board unique?

Systainable and stylish
The scratch-resistant ceramic steel surface offers long-lasting writing quality and is available in the stylish SatinTones colour palette for a modern, calming look.

Customization options
Chameleon offers custom dimensions, allowing each board to be perfectly tailored to the space and intended use.

Present efficifently
Chameleon double column boards feature a sleek, well-thought-out design with two independently adjustable writing surfaces. Ideal for spaces where interaction, clarity, and flexibility are key—such as classrooms, meeting rooms, and creative workspaces.

Double Column Board - C300 + S205

Designed to perfection

The Chameleon double-column board combines a sleek, contemporary design with practical functionality. For teachers who use these boards intensively every day, ergonomics is an important factor. The boards can be effortlessly and continuously adjusted in height, up to nearly the top of the column at 290 cm. This allows you to write comfortably at any desired height and display content high up in the classroom for everyone to see. Thanks to the convenient chalk tray, markers and chalk are always within easy reach.

The flat ceramic steel writing surface offers a natural writing experience, is magnetic, and easy to keep clean. The option of a stylish SatinTones finish, combined with the white-lacquered columns, creates a calm, modern look that fits perfectly in a variety of learning environments.

Expertly crafted in
the Netherlands

Like all Chameleon products, the column board is manufactured with precision in the Netherlands. The high-quality ceramic steel surface, combined with carefully selected materials, ensures durability and optimal writing performance.

Each board undergoes a strict visual inspection and manual finishing process to guarantee a perfect product that will last for years in any space. Thanks to its modular design and robust frame, the board is both functional and stylish.

Installation with maximum stability

The Chameleon Double Column Board is designed in accordance with NEN-EN14434:2010. The column boards are mounted on two vertical aluminum double columns that are securely fixed to the wall with screws. These columns form the supporting system and ensure maximum stability, even with intensive use. The wall itself does not need to bear the board: the weight rests entirely on the floor.

After the columns have been secured, the whiteboard panels are easily placed onto the rail system. The board slides smoothly in the columns and can then be adjusted in height steplessly. Ideal for classrooms or other spaces where users of different heights work with the board.

No complex systems or additional accessories are required for installation. Thanks to the clear design, installa tion can be carried out quickly and accurately. The end result is a sleekly integrated whiteboard with maximum functionality and minimal visual distraction.

Double Column Board - HG100 & C300

Why Chameleon?

You don't choose a Chameleon product just for its high-quality design and proven reliability.
You also choose a partner who thinks along with you, responds quickly, and works together to build sustainable solutions. What makes Chameleon unique?

Flexibility is in our DNA

Whether it concerns customisation, a quick adjustment in scheduling, or specific project requirements, we respond swiftly. Our family business is set up to be customer-focused and agile, without compromising on quality or service.

## Local production, visible craftmanship

All Chameleon products are manufactured in-house, in our modern production facilities in Geldrop, near Eindhoven. Here, we combine craftsmanship with technology, with care for people and the environment. We warmly invite customers and partners to see firsthand how we ensure quality, sustainability, and transparency.

Built for the future

Our products are made to last. That's why we offer a lifetime warranty on the ceramic steel writing surface. A long lifespan means less waste, fewer replacements, and therefore a smaller ecological footprint.

Sustainability

As a brand of Smit Visual, we take our responsibility for people and the planet seriously. We continuously work on making our processes, materials, and products more sustainable. For example, we use FSC-certified wood and hold ISO 14001 and Ecovadis Gold certifications. Sustainability is not a project, but an attitude embedded in our daily work.

Specifications

What is Ceramic steel?

All Chameleon surfaces on this page feature a top layer of ceramic steel which is Cradle to Cradle Bronze certified. This enamel layer offers a hardness and smoothness comparable to glass. It provides the same scratch resistance and the same long lifespan. Chameleon offers the following ceramic steel surfaces:

LIFETIME WARRANTY

SatinTones

SatinTones is a ceramic steel surface with a matt appearance. The surface brings calm to the space and remains perfectly legible from every viewing angle. It is also available in fifteen subtle colour tones. SatinTones is an excellent alternative to glassboards.

ⓘ **Application:** Whiteboard with a low gloss surface. S200 is also suitable for projection
ⓘ **Writing / erasing:** Whiteboard markers / dry erase
ⓘ **Maximum panel size:** 1200x4000 mm

High Gloss

This surface has a high gloss level although lower than glassboards. The benefit of the glossy finish is that markings are perfectly visible. This makes it ideal for presentations and situations where content is read from a distance, such as in offices.

- ⓘ **Application:** Best selling whiteboard surface with a high gloss level
- ⓘ **Writing / erasing:** Whiteboard markers / dry erase
- ⓘ **Maximum panel size:** 1200x4000 mm

Projection

This ultra matt surface shows no reflection whatsoever. Projection on this board therefore delivers the best possible image quality from projectors. The board is writable but erasing is considerably less easy. When cleaned with whiteboard spray it can be restored to a perfectly clean state.

- ⓘ **Application:** Ultra matt surface, highly suitable for projection
- ⓘ **Writing / erasing:** Whiteboard markers / wet erase
- ⓘ **Maximum panel size:** 1200x4000 mm

Chalk

Choosing a chalkboard comes with specific benefits. The most important is the ability to create nuances in writing by applying more or less pressure. The Chameleon chalkboard surface is manufactured with ceramic steel just like the whiteboard surfaces. As a result Chameleon chalkboards are perfectly erasable throughout their entire lifespan. The matt surfaces are available in green and grey.
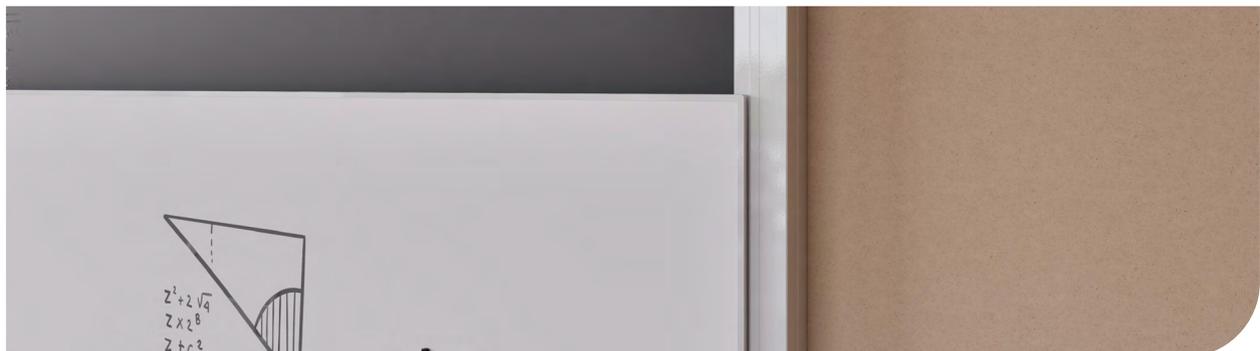

- ⓘ **Application:** Colourfast, wear resistant with an even colour tone
- ⓘ **Writing / erasing:** Chalk / dry erase
- ⓘ **Maximum panel size:** 1200x4000 mm
