Why Choose the Chameleon Bulletin Notice Board?

The Chameleon Bulletin Notice Board is more than just a pinboard: it's a stylish and durable element that brings warmth and peace to any modern learning or work environment. Its natural bulletin material, seamless finish, and contemporary colour options ensure a harmonious integration into your interior.

Whether you're sharing information, organizing ideas, or creating an inspiring project wall, the Bulletin Notice Board perfectly combines functionality with aesthetics.

✓ Design with peace

The Chameleon Bulletin Notice Board exudes luxury thanks to its subtle bevel and shadow effect. Its matte, warm finish fits seamlessly into contemporary learning spaces.

✓ Natural and durable

The natural bulletin material is resilient, wear-resistant, and self-healing after pinning. This ensures that the board remains visually appealing even under intensive use in educational settings.

✓ Flexible application

Chameleon Bulletin Notice Boards integrate effortlessly with whiteboards to create multifunctional, calm walls. Each panel can be custom-made to perfectly fit your space and interior design.

Expertly crafted in the Netherlands

Each Bulletin Notice Board is crafted with skill and precision in the Netherlands. Chameleon Bulletin Notice Boards consist of two carefully selected layers: a pin surface and a wooden backing panel.

After production, each surface undergoes a thorough visual inspection. By combining modern technology with traditional craftsmanship, the result is a notice board that excels in quality and is sustainably deployable in any environment.

Hassle-free mounting

Invisible fixing, clean finish

Behind every bulletin board lies a clever fixing. Installation is simple thanks to a practical screw mount. Whereas screws are usually visible and detract from the overall look, on Bulletin Notice Boards they are neatly concealed with the same bulletin material as the board itself.

Mount it your way—fast and in style

Chameleon Bulletin Board can be mounted quickly and effortlessly thanks to its smart and simple mounting system. This makes it ideal for seamlessly combining the bulletin board with whiteboards, creating a versatile wall solution. The well-thought-out mounting ensures the panels fit perfectly within the interior design and intended use of the space. This allows you to effortlessly create a functional and stylish combination of pin and writing surfaces. When combining Bulletin Board with whiteboards, glass lifters (51508.010) are recommended for mounting the whiteboards.

Visual unity in functionality

Chameleon Bulletin Notice Boards can be perfectly combined with other Chameleon products or elements in the space. This creates a functional and visual unity that conveys calm and cohesion.

For example, pair the bulletin board with whiteboard panels of the same size or style for a balanced and organized learning environment. In classrooms

or project areas, this combination provides space for different working methods and encourages collaboration and focus.

A notice board or wall is more than decoration. It is an educational tool that helps increase interaction and engagement.

Inspiring combinations

Bulletin Notice Board + Whiteboard

A combination of a bulletin board and a Sharp whiteboard offers the benefits of both: the whiteboard for quick notes and ideas, the bulletin board for clearly displaying fixed information. This way, you keep everything clear and flexible together.

Bulletin Notice Board + Display

A bulletin board and display combined give you both static and dynamic information. The bulletin board neatly shows fixed messages, while the display presents changing content clearly and prominently. This way, you reach everyone effectively, anytime and anywhere.

Why Chameleon?

You don't choose a Chameleon product just for its high-quality design and proven reliability. You also choose a partner who thinks along with you, responds quickly, and works together to build sustainable solutions. What makes Chameleon unique?

Flexibility is in our DNA

Whether it concerns customisation, a quick adjustment in scheduling, or specific project requirements, we respond swiftly. Our family business is set up to be customer-focused and agile, without compromising on quality or service.

Local production, visible craftsmanship

All Chameleon products are manufactured in-house, in our modern production facilities in Geldrop, near Eindhoven. Here, we combine craftsmanship with technology, with care for people and the environment. We warmly invite customers and partners to see firsthand how we ensure quality, sustainability, and transparency.

Built for the future

Our products are made to last. That's why we offer a lifetime warranty on the ceramic steel writing surface. A long lifespan means less waste, fewer replacements, and therefore a smaller ecological footprint.

Sustainability

As a brand of Smit Visual, we take our responsibility for people and the planet seriously. We continuously work on making our processes, materials, and products more sustainable. For example, we use FSC-certified wood and hold ISO 14001 and Ecovadis Gold certifications. Sustainability is not a project, but an attitude embedded in our daily work.

Bulletin Notice Board in practice

In classrooms and learning spaces, a Chameleon Bulletin Board provides a central place for information, planning, and student work. It supports visual communication and clarity, while the durable, stylish design fits seamlessly into any modern educational environment.

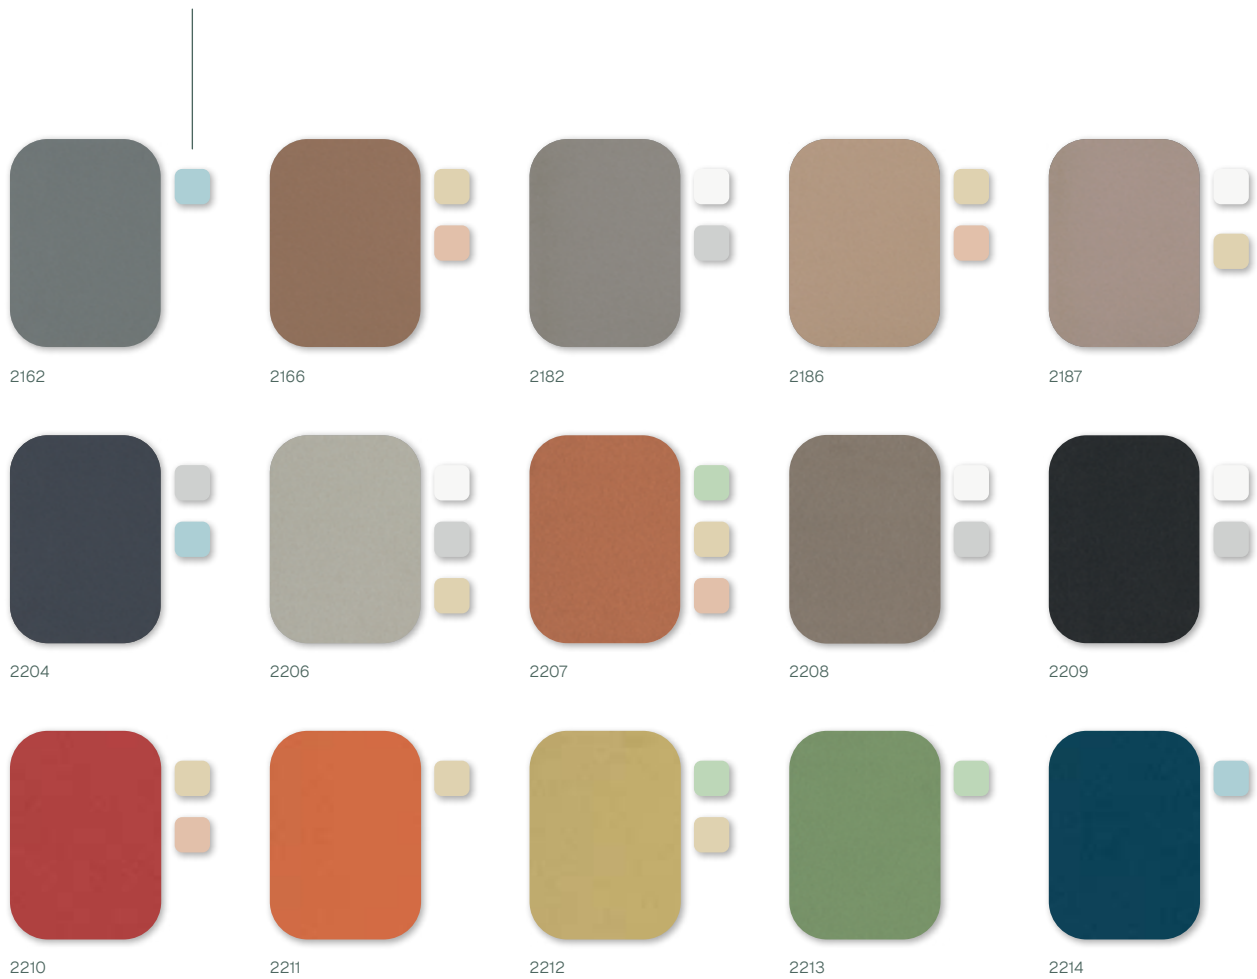

Chameleon pinnboard quality

What is bulletin?

The bulletin material used in Chameleon Bulletin Notice Boards is made entirely from natural materials, 45% of which are recycled. The base material, organic cork, contributes to a natural appearance and an exceptionally long lifespan. Additionally, the bulletin has a unique self-healing ability, allowing pinholes to close up over time.

Colours

Specifications

What is Ceramic steel?

All Chameleon surfaces on this page feature a top layer of ceramic steel which is Cradle to Cradle Bronze certified. This enamel layer offers a hardness and smoothness comparable to glass. It provides the same scratch resistance and the same long lifespan. Chameleon offers the following ceramic steel surfaces:

SatinTones

SatinTones is a ceramic steel surface with a matt appearance. The surface brings calm to the space and remains perfectly legible from every viewing angle. It is also available in fifteen subtle colour tones. SatinTones is an excellent alternative to glassboards.

- ① **Application:** Whiteboard with a low gloss surface. S200 is also suitable for projection
- ① **Writing / erasing:** Whiteboard markers / dry erase
- ① **Panel edge colour:** Same colour as the surface
- ① **Maximum panel size:** 1180x2980 mm / 1480x2980 mm (S200 only)

High Gloss

This surface has a high gloss level although lower than glassboards. The benefit of the glossy finish is that markings are perfectly visible. This makes it ideal for presentations and situations where content is read from a distance, such as in offices.

- ① **Application:** Best selling whiteboard surface with a high gloss level
- ① **Writing / erasing:** Whiteboard markers / dry erase
- ① **Panel edge colour:** White
- ① **Maximum panel size:** 1180x2980 mm / 1480x2980 mm

HG100
High Gloss
S 0500-N
Cool Gray 1 C

Projection

This ultra matt surface shows no reflection whatsoever. Projection on this board therefore delivers the best possible image quality from projectors. The board is writable but erasing is considerably less easy. When cleaned with whiteboard spray it can be restored to a perfectly clean state.

- ① **Application:** Ultra matt surface, highly suitable for projection
- ① **Writing / erasing:** Whiteboard markers / wet erase
- ① **Panel edge colour:** White
- ① **Maximum panel size:** 1180x2980 mm / 1480x2980 mm

Projection
S 0500-N
Cool Gray 1 C

Chalk

Choosing a chalkboard comes with specific benefits. The most important is the ability to create nuances in writing by applying more or less pressure. The Chameleon chalkboard surface is manufactured with ceramic steel just like the whiteboard surfaces. As a result Chameleon chalkboards are perfectly erasable throughout their entire lifespan. The matt surfaces are available in green and grey.

- ① **Application:** Colourfast, wear resistant with an even colour tone
- ① **Writing / erasing:** Chalk / dry erase
- ① **Panel edge colour:** Black
- ① **Maximum panel size:** 1180x2980 mm / 1480x2980 mm (C301 only)

Close-up

Whiteboard lines

Chameleon school boards (in High Gloss – HG100, and Chalk Graphite – C300, and Chalk Canopy – C301) can be provided with lines, grids, or crosses. The quality of this surface is exactly the same as that of the same surface without printing. For these surfaces as well, we guarantee lifelong perfect writability and erasability.

Crosses 5 cm
Distance between crosses: 50 mm

Crosses 10 cm
Distance between crosses: 100 mm

Squares 5 cm
Size squares: 50 mm

Squares 10 cm
Size squares: 100 mm

Music lines*
Distance between lines: 25/25/25/25/120 mm

1st school year*
Distance between lines: 20/40/50/40 mm

2nd school year*
Distance between lines: 20/30/40/30 mm

3rd school year*
Distance between lines: 80/35 mm

4th school year*
Distance between lines: 100 mm

* Max. height of boards with these printed ceramic steel surfaces: 120 cm. The surface of ceramic steel boards smaller than 120 cm must be cut to size. The lines will therefore not be evenly spaced across the full height of the board.

General

Size (cm)	Surface	Article number	Gross weight	Nett weight
118x198 cm	Bulletin	11609.810 (+ code; p. 8)	20,8 kg	18,8 kg
118x148 cm	Bulletin	11609.811 (+ code; p. 8)	16 kg	14,2 kg

Technical

Bulletin Notice Board

Characteristics:	- Pinnable
	- Self healing surface
	- Bacteriostatic
	- Easy to maintain

Material:	Made with sustainable materials, 45% of which are recycled
------------------	--

Thickness:	15 mm (including mounting system)
-------------------	-----------------------------------

Acoustic performance:	α_w 0,10
------------------------------	-----------------

Mounting:	Remountable magnetic mounting
------------------	-------------------------------

Warranty:	2 years
------------------	---------

Construction

Bulletin Notice Board

1. Surface:	Bulletin, 6 mm thick
2. Carrier:	9 mm blank MDF
Finishing:	At the back, equipped with a beveled edge for a floating effect

Construction

Bulletin Notice Board mounting system

3. Carrier:	Bulletin, 6 mm thick
2. Pinning surface:	9 mm blank MDF
1. Finishing:	Bulletin sealing cap

Packaging

Bulletin Notice Board

Type:	Crate
Content:	Chameleon Bulletin Notice Board, mounting material and mounting guide
Packaging unit:	1 unit per panel
Materials:	Wood, cardboard, polyethylene protection tube
Size:	Size board + 3 cm width, 3 cm depth, 4 cm height

Technical

Whiteboard

Characteristics:	- Magnetic and dry erasable - Suitable for very intensive use
Thickness:	10 mm (14.5 incl. mounting system – flush transition to pinboard)
Mounting:	TÜV certified magnetic mounting system
Warranty:	2 years
Surface warranty:	Lifetime on writability and dry erasability

Construction

Whiteboard

1. Surface:	Ceramic steel 0.4 mm (Indoor Air Quality Certified to SCS-EC10.3-2014 v4.0)
2. Carrier:	MDF 9 mm (FSC 70%)
3. Backing:	0.4 mm galvanized steel sheet
Finishing:	Lacquered edges, see page 10. Easy to keep clean

Construction

Whiteboard mounting system

4. Magnetic sheet:	Anisotropic magnet, 1,5 mm thick
5. Adhesive layer:	Double-sided tape
6. Mounting plate:	Gegalvanised-steel plate, 3 mm thick, with holes for screwing

Packaging

Whiteboard

Type:	Crate
Content:	Chameleon whiteboard panel, mounting material and mounting guide
Packaging unit:	1 unit per panel
Materials:	Wood, cardboard, polyethylene protection tube
