

Chameleon Glassboard Starter Kit

Accessories for glassboards

Why choose the Chameleon Glassboard Starter Kit?

Everything you need to make optimal use of a Chameleon glassboard. The Glassboard Starter Kit combines high-quality accessories with a stylish transparent acrylic shelf, specially designed for glass writing surfaces.

✓ **Designed for glassboards**

A glassboard places different demands on accessories than a traditional whiteboard. That's why this starter kit is fully tailored to glass writing surfaces. All components are carefully selected to perform optimally on Chameleon glassboards.

✓ **Magnets that work on glass**

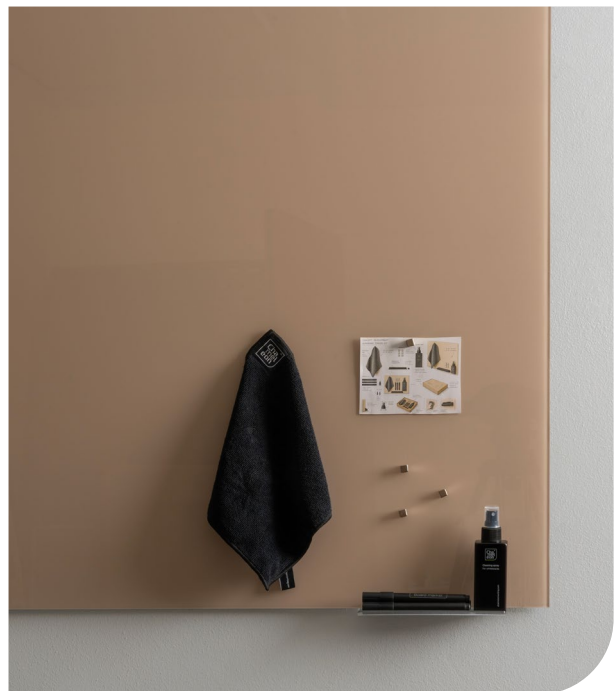

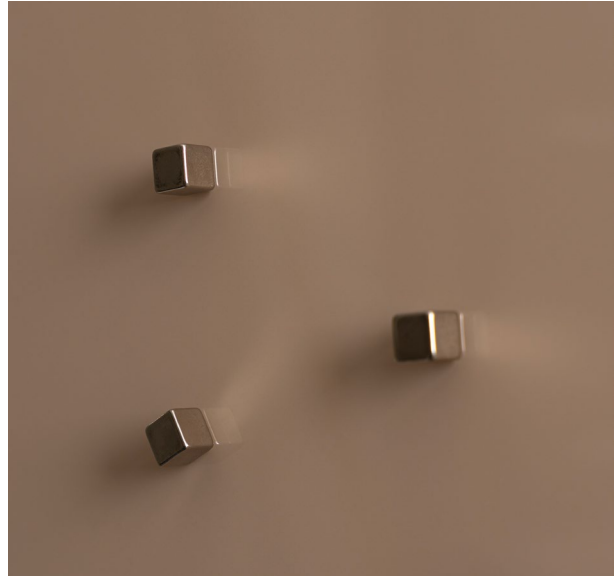

Due to the thickness of glass, standard magnets are not suitable for glassboards. That's why this set includes powerful glassboard magnets specifically developed for use on glass writing surfaces. They keep documents, notes, and schedules firmly in place.

✓ **Everything neatly organized**

The transparent acrylic shelf provides a dedicated place for markers and cleaning accessories. This keeps the glassboard tidy and ensures all essentials are always within easy reach. The clear look of acrylic seamlessly matches the minimalist design of the glassboard.

✓ **Functionality meets design**

The combination of transparent acrylic, high-quality accessories, and the sleek character of glass creates a refined appearance. As a result, the Glassboard Starter Kit is not only a practical addition, but also an extension of the glassboard's design.

General

Article number	Gross weight	Nett weight
14017162	0,7 kg	0,6 kg

Contents

1 transparent acrylic tray	A stylish shelf made of transparent acrylic. Designed to neatly store markers and cleaning accessories, and perfectly aligned with the appearance of Chameleon glassboards.
3 black board markers	Three high-quality glassboard markers specifically developed for use on glass writing surfaces. The ink provides excellent visibility and is easy to dry-erase. Line width: 2–3 mm.
8 glassboard magnets	Eight powerful glassboard magnets specially designed for use on glassboards. Ideal for attaching documents, notes, and schedules to glass writing surfaces.
1 glassboard cleaning spray	A cleaning spray specifically developed for glass writing surfaces. Easily removes marker residue and helps keep the glassboard clean, presentable, and performing optimally over time.
1 magnetic microfiber cloth	A high-quality microfiber cloth for daily cleaning of the glassboard. Ensures a clean, streak-free writing surface.

I am not using pCon yet

The globally renowned pCon platform is a 3D interior design software used by countless interior professionals. pCon offers various apps you can use. The main tool you need to create 3D visualisations is pCon.planner for laptop/desktop. This software is free to use and can be downloaded here. Don't forget to request the Chameleon data at the top of this page afterwards.

[Download pCon planner](#)

Additional pCon tools

Chameleon assortment items are freely accessible and can be downloaded as 3D files in pCon.catalog.

Configure Chameleon products and place them directly in a space using augmented reality. You can also upload 2D floor plans for precise placement.

pCon.facts

Always have access to product information, 3D models, and images of Chameleon products. Ideal for presentations.

The ultimate quotation tool with the CPQ (Configure, Price, Quote) application. Configure products and determine prices.

Experience the Glassboard Starter Kit in your project.

Curious to see how Chameleon Glassboard Starter Kit fits into your interior design?
We're happy to support you, from samples to custom solutions, from pCon files to showroom visits.
