

Chameleon Whiteboard Starter Kit

Accessories for whiteboards

Why choose the Chameleon Whiteboard Starter Kit?

Everything you need to get started with a Chameleon whiteboard right away. The Starter Kit combines markers, magnets, cleaning solutions, and convenience in one complete set that perfectly complements the premium character of Chameleon.

✓ Everything at your fingertips

A whiteboard truly comes into its own when the right accessories are always within reach. That's why the Chameleon Starter Kit includes all the essential tools for everyday use. From writing and presenting to cleaning and organizing, everything is brought together in one complete package.

✓ Designed for optimal performance

The cleaning spray has been specially developed for ceramic steel writing surfaces. Combined with the microfiber wiper, it helps keep the whiteboard clean and preserves its excellent writing and erasability properties over time. This ensures the surface remains professional-looking and performs at the highest level, day after day.

✓ Markers that stay where they belong

The included markers can be attached directly to the whiteboard using a magnetic clip. This keeps them visible, easily accessible, and less likely to get lost. As a result, the workspace or learning environment stays organized, with the right tools always within reach when needed.

✓ Chameleon quality in every detail

The Starter Kit seamlessly matches the look and feel of Chameleon whiteboards. Matte black accessories, premium materials, and a refined presentation create a professional appearance. Functionality, ease of use, and design come together in one thoughtful solution.

General

Article number	Gross weight	Nett weight
14017163	0,35 kg	0,25 kg

Contents

3 black whiteboard markers	Three high-quality board markers in a stylish matte black finish. Each marker comes with a magnetic clip, allowing it to be easily attached to the ceramic steel surface and kept within easy reach at all times. Line width: 2–3 mm.
10 black cylindrical magnets	Ten stylish black magnets for attaching documents, notes and task cards. Designed to perfectly match the aesthetic of Chameleon whiteboards.
1 magnetic cleaning spray	A magnetic cleaning spray specially developed for ceramic steel writing surfaces. Ideal for removing marker residue and maintaining a clean, professional, and high-performing whiteboard.
1 magnetic microfibre cloth	A premium black microfibre cloth for regular maintenance of the writing surface. Used in combination with the Chameleon cleaning spray, it removes more stubborn marker residue and keeps the whiteboard clean and presentable over time.

I am not using pCon yet

The globally renowned pCon platform is a 3D interior design software used by countless interior professionals. pCon offers various apps you can use. The main tool you need to create 3D visualisations is pCon.planner for laptop/desktop. This software is free to use and can be downloaded here. Don't forget to request the Chameleon data at the top of this page afterwards.

[Download pCon planner](#)

Additional pCon tools

Chameleon assortment items are freely accessible and can be downloaded as 3D files in pCon.catalog.

Configure Chameleon products and place them directly in a space using augmented reality. You can also upload 2D floor plans for precise placement.

pCon.facts

Always have access to product information, 3D models, and images of Chameleon products. Ideal for presentations.

The ultimate quotation tool with the CPQ (Configure, Price, Quote) application. Configure products and determine prices.
