Oak Mobile, 92 cm + 122 cm

Why choose Chameleon Oak Mobile?

Chameleon Oak Mobile is more than a mobile whiteboard. It is a freestanding interior piece in solid oak, designed to sit naturally in any warmly designed workplace. Its ceramic steel writing surface with the soft SatinTones finish invites writing, sketching and sharing, for years, without compromising on looks or function. A piece of architecture you can write on.

✓ **Solid oak, visible craftsmanship**
The frame is made of lacquered solid oak, with a base integrated into the frame itself. This calm, solid construction gives the mobile board substance and a warm, luxurious look.

✓ **SatinTones writing surface**
The calm, natural SatinTones colours combine well with wood. The matte ceramic steel surface is scratch-resistant, free of ghosting and reflects little light: easy to read under office lighting and from an angle.

✓ **Rolls with your ideas**
On braked castors, Oak Mobile moves easily between zones: from lounge to project space, from reception to boardroom. The board can be used on both sides.

Expertly made in the Netherlands

Every Oak Mobile whiteboard is made in the Netherlands with craftsmanship and precision. The base and frame, both in solid oak, are made by a specialist woodworker. We produce the ceramic steel writing surface in-house, in our production halls in Geldrop.

Two crafts come together: woodworking you can see in the clean finish of the base and frame, and a writing surface that stays beautiful for years. Ceramic steel does not scratch or leave shadows. That is why Chameleon offers a lifetime warranty on the writing surface.

Resimercial by design

Oak Mobile belongs in any office designed in a warm, resimercial interior language: lounges, breakout and quiet corners, project spaces, reception areas and equally meeting rooms and boardrooms. It is not the type of room that decides, but the interior style.

For organisations that design their workplace as a brand experience, a whiteboard is no afterthought. It is part of a material story in which finish, colour and texture are chosen as deliberately as the flooring, the lighting and the furniture. Oak Mobile is made for this: an object a visitor or new employee notices, not office equipment that disappears into the room.

Personalised to any interior concept

Oak Mobile is available in two widths, 92 cm and 122 cm, and in fifteen SatinTones colours. This makes colour choice part of the interior concept, not an afterthought. The solid oak frame sits calmly alongside other natural furniture: the mobile whiteboard blends into the room instead of dominating it.

Oak Mobile - 92 cm

Oak Mobile - 122 cm

Why Chameleon?

You don't choose a Chameleon product just for its high-quality design and proven reliability.
You also choose a partner who thinks along with you, responds quickly, and works together to build sustainable solutions. What makes Chameleon unique?

Flexibility is in our DNA

Whether it concerns customisation, a quick adjustment in scheduling, or specific project requirements, we respond swiftly. Our family business is set up to be customer-focused and agile, without compromising on quality or service.

Sustainability

As a brand of Smit Visual, we take our responsibility for people and the planet seriously. We continuously work on making our processes, materials, and products more sustainable. For example, we use FSC®-certified wood and hold ISO 14001 and Ecovadis Gold certifications. Sustainability is not a project, but an attitude embedded in our daily work.

Local production, visible craftsmanship

All Chameleon products are manufactured in-house, in our modern production facilities in Geldrop, near Eindhoven. Here, we combine craftsmanship with technology, with care for people and the environment. We warmly invite customers and partners to see firsthand how we ensure quality, sustainability, and transparency.

Built for the future

Our products are made to last. That's why we offer a lifetime warranty on the ceramic steel writing surface. A long lifespan means less waste, fewer replacements, and therefore a smaller ecological footprint.

Specifications

What is Ceramic steel?

All Chameleon surfaces on this page feature a top layer of ceramic steel which is Cradle to Cradle Bronze certified. This enamel layer offers a hardness and smoothness comparable to glass. It provides the same scratch resistance and the same long lifespan. Chameleon offers the following ceramic steel surfaces:

LIFETIME WARRANTY

SatinTones

SatinTones is a ceramic steel surface with a matt appearance. The surface brings calm to the space and remains perfectly legible from every viewing angle. It is also available in fifteen subtle colour tones. SatinTones is an excellent alternative to glassboards.

ⓘ **Application:** Whiteboard with a low gloss surface. S200 is also suitable for projection

ⓘ **Writing / erasing:** Whiteboard markers / dry erase
